

Baseball Rules

1st-2nd Grade Machine Pitch Rules

General

1. The Umpire will lead in prayer before the start of each game. After the game, both teams will line up to congratulate each other for a game well played.
2. The Sporting News Official Rules of Baseball shall apply at all times, except as amended as below.
3. The game will be six (6) innings. No inning starts after 70 minutes. Weekday games may be shorter.
4. If the catcher drops the ball on the third strike, the batter is still OUT.
5. Base lines shall be 55 feet in length.

Offense

1. The offensive team will be made up of the entire team roster. Example: If eleven players are present and not injured or ill, eleven players bat. In case of injury or illness, the injured or ill player shall miss his turn at bat with no penalty.
2. Each batter will receive up to five (5) pitches. If a batter fouls off the 5th pitch, they will receive another pitch. This will continue until the player hits the ball into fair territory or swings and misses for a strikeout. If the batter lets the 5th pitch go by, he is out. Note: if the batted ball hits either the coach pitcher or the pitching machine, the ball is dead and runners advance 1 base.
3. The offensive coach will operate the pitching machine. The coach pitcher should make every effort to avoid making adjustments to the pitching machine within an inning. If the pitching machine needs to be adjusted, it should be after the home team hits. The pitcher may carry a glove onto the field for his protection only. The pitcher should complement the defensive team and never attempt to distract them. *When the ball is hit, the designated pitcher will attempt to leave the field of play, opposite the play.*
4. An inning will end after the third out or after five (5) runs have scored in an inning.
5. The base runners may NOT steal. The base runner shall remain in contact with the base until the ball is hit.
6. Bunting is NOT allowed.
7. NO infield fly rule is in effect.
8. The on-deck batter will use the on-deck batter's circle behind the batter that is at bat during a practice or regular game.
9. All batters, on deck batters, and base runners are required to wear a batting helmet. All equipment that is not in use must remain in the dugout.
10. Bat Throwing will not be tolerated. Any batter that throws the bat will receive a warning. If the same batter throws the bat again, he will be automatically out (this should be treated as a dead ball and the runners may not advance).
11. Overthrows: Base runners can advance one (1) base at their own risk on an overthrow at any base. There shall be allowed only one overthrow per play. Any consequent overthrows in the same play will not warrant another base.
12. A courtesy runner for the catcher is required when there are two outs or when the runner who would be the fifth run is in scoring position (on second or third base). The person who runs for the catcher will be the player who made the last out (not necessarily the last

batter in the dugout).

13. A player must attempt to slide when the defensive player is making a play on the ball or has the ball and is waiting to make a tag. The runner will be called out if a slide is not attempted to avoid collision.

Defense

1. There will be ten (10) players on defense: a standard infield and four (4) outfielders. If a team has less than nine (9) players, the opposing coach should arrange a loan of players for defensive purposes. There are no forfeits.
2. Any player on the bench for a defensive inning must play the next defensive inning, unless injured. A player shall not sit out two consecutive innings or sit out twice before everyone else has sat out at least once.
3. All players shall play a minimum of three innings on defense.
4. Players only have to switch positions every 2 innings. All players will have the opportunity to play the infield. It is not required for every player to play every position or for the coach to swap out the catcher & first baseman.
5. The defensive team may have two coaches in the outfield behind the players and one coach behind the catcher to help with player positioning. Coaches should NOT interfere with play.
6. Players should play in their correct positions. No defensive player shall be positioned outside of their normal position. Any defensive player may move outside their position once the ball is put in play by the batter. There should be no outfielders playing on the infield dirt or more than one pitcher.
7. Before any pitch is delivered, the player pitcher is to be positioned with at least one foot on or inside the pitching circle and parallel to the pitching rubber, to the left or right of the machine, maintaining sufficient distance as to not interfere with the delivery of the pitch.
8. The ball becomes dead when (A) the pitcher has control of the ball within the pitching circle/mound, (B) a defensive player has control of the ball in front of the of the lead runner (trail runners awarded closest base at umpire discretion), or (C) all runners have maintained their current base.
9. Players may not intentionally distract the batter. This includes verbal “chatter” and any other noises intended to distract.
